## **Lovell awarded £12 million North Warwickshire housing improvement contract**

Morgan Sindall's affordable housing and regeneration business Lovell has been selected by North Warwickshire Borough Council to deliver a £12 million modernisation programme for its housing stock.

Lovell will start the consultation work later this spring for the three-year programme to ensure properties meet the Government's Decent Homes Standard. Work in homes will begin following the consultation period.

The company will carry out improvements including the installation of new kitchens and bathrooms, replacement of roofs, windows and doors and other upgrading work to 2,000 homes owned by the council.
