## **Overbury starts work on £33 million Deloitte City fit out**

Morgan Sindall's office fit out and refurbishment specialist Overbury has started work on a £33 million fit out of two new office buildings for business advisory firm Deloitte in New Street Square, EC4.

The phased 39-week fit out of 255,000 square feet of accommodation follows recently completed schemes for the firm at Global House in Crawley and Spinningfields in Manchester.

Within close proximity to three of Deloitte's other City offices, the new buildings are part of a green office development which aims to beat government energy-efficiency targets by 15 per cent.
